**RISK PROFILE**

1 2 3 4 5 6 7 8 9 10

*This portfolio is suitable for investors with a time horizon of over 5 years who are willing to accept some investment risk in return for the potential for limited participation in rising investment markets. Consequently, the investor is willing to accept fluctuations in their capital value over the short and medium term.*

## PORTFOLIO OBJECTIVE AND INVESTMENT POLICY

The Athena Active Cautious Portfolio aims, over the longer term, to provide the potential for a level of return in excess of inflation, and commensurate with a conservative investment strategy that targets moderate participation in rising investment markets whilst also seeking to dampen fluctuations in capital values. To achieve this level of return, the portfolio will invest in asset classes which will introduce fluctuations in capital value over the short and medium term.
